FAHREJA AHMAD SANJAYA

IT SUPPORT | NETWORK INFRASTRUCTURE

GitHub: github.com/elsanjayaa

TJKT Student | SMKN 1 Cipanas

PROFILE

Student of Teknik Jaringan Komputer dan Telekomunikasi (TJKT) with practical IT Support experience in a hotel environment. Focused on network infrastructure, troubleshooting, Linux, and network monitoring.

SKILLS

Network Management	ADVANCED FOCUS
Hardware Troubleshooting	HANDS-ON
Computer Maintenance	HANDS-ON
Linux	GROWING
Cisco	LEARNING
MikroTik	LEARNING
Subnetting	LEARNING
Routing & Switching	LEARNING
Virtual Local Area Network	HANDS-ON
Agentic AI	LEARNING

TECHNOLOGIES

Debian · Apache2 · SSH · Cacti · MariaDB · Cisco PT · MikroTik · VLAN · TCP/IP · VirtualBox · draw.io · EndeavourOS

EDUCATION

SMKN 1 Cipanas

TJKT - Computer Networking

Report-card average: 86/100

Productive score: 90/100

EXPERIENCE

IT SUPPORT - LE EMINENCE PUNCAK HOTEL

PKL | 17 Jan - 17 Jul 2026

PKL SCORE 16/20

- Performed hardware, software, and connectivity troubleshooting for hotel IT operations.
- Configured and installed wireless access points, including MikroTik-to-AP setups and basic addressing.
- Maintained and checked CCTV, TVs, printers, panels, OLT-related equipment, and network cabling.
- Installed Windows, performed cable crimping and pulling, and handled routine device maintenance.
- Supported hotel door-lock maintenance, including timer updates and mortise replacement.
- Conducted room floor checks and documented technical fixes in an operational environment.

SCHOOL PRACTICAL PROJECTS

- **Debian Network Monitoring Server**
  Debian + Apache2 + SSH + Cacti
  Built a school lab server for network monitoring, web service, remote administration, and dashboard-based monitoring.
- **Corporate Building VLAN Design**
  Cisco Packet Tracer
  Designed a multi-floor/company building VLAN topology and practiced segmentation and inter-VLAN networking concepts.
- **Network Topology Documentation**
  draw.io
  Created network diagrams to document device connections, segmentation, and infrastructure layout clearly.

Target roles: IT Support | Network Infrastructure | NOC
